He is a member of the company's audit committee and salary and remuneration committee. His international outlook and legal expertise can enhance the company's thinking on business management strategies with a more diversified perspective.	employee of a company that has a specific relationship with the company; has	1

Board Diversity:

In order to strengthen corporate governance and promote the sound development of the composition and structure of the Board of Directors, the Company adopted the "Corporate Governance Code" at the 13th meeting of the 22nd Board of Directors on August 12, 2019, of which Article 20: The composition of the Board of Directors should consider Diversify and formulate appropriate diversification policies based on its own operations, operating types and development needs, which should include but are not limited to the following two major

Standards for:

1. Basic conditions and values: gender, age, nationality and culture, etc.

2. Professional knowledge and skills: professional background (such as law, accounting, industry, finance, marketing or technology), professional skills and industrial experience, etc.

Board members should generally possess the necessary knowledge, skills and qualities to perform their duties. In order to achieve the ideal goal of corporate governance, the overall board of directors should possess the following abilities:

1. Operational judgment ability.

2. Accounting and financial analysis skills.

- 3. Operation and management capabilities.
- Crisis handling capabilities.
   Industrial knowledge.
   International market outlook.

- 7. Leadership skills.
  8. Decision-making ability.

The implementation of diversity among board members is as follows:

The company's current board of directors consists of nine directors, and the professional abilities of the members comply with the

relevant regulations for implementing diversity

Specific management goals and achievement status:

Management Goal	Achieve situation
1. Pay attention to gender equality among members, and the board of directors should include at least	unacommpolished
one female director.	
2. No more than two directors should be spouses or relatives within the second degree of affinity.	achieve

3. Focus on operational judgment, business management and crisis management capabilities, and more than	achieve
2/3 of the board members should have the ability to perform relevant projects.	
4. Continue to arrange diversified training courses for directors to improve their decision-making	achieve
quality and supervision capabilities, thereby strengthening the functions of the board of directors.	
5. The number of independent director seats accounts for one-third of the director seats.	achieve

#### Board independence:

The company's nomination of board members adopts a candidate nomination system, which complies with the company's "Articles of Association", "Director Election Methods", "Corporate Governance Code", etc. The current composition of the board of directors is 3 independent directors (33.3%), 6 non-independent directors (66.7%), 3 of whom are employees/managers (33.3%), all directors do not have spouses or relatives within the second degree, in compliance with Article 1 of the Securities and Exchange Act Article 26-3 stipulates the circumstances specified in paragraphs 3 and 4. In addition, based on the results of the annual board performance evaluation, we will consider adjusting the composition of the board of directors to ensure the independence, competency and diversity of the members.

The company's board of directors guides the company's strategies, supervises the management and is responsible to the company and shareholders. In all operations and arrangements of the corporate governance system, the board of directors exercises its powers in accordance with laws, company articles of association or shareholders' meeting resolutions. The company's board of directors emphasizes the functions of independent operation and transparency. Directors and independent directors are independent individuals and exercise their powers independently. The three independent directors also comply with relevant laws and regulations, coordinate with the powers of the audit committee, review the management and control of the company's existing or potential risks, etc., so as to effectively supervise the effective implementation of the company's internal controls, the selection (removal) and independence of certified accountants. Proper preparation of financial statements.

- 3.3.5 An analysis of the proportion of the total remuneration paid to the company's directors, general managers and deputy general managers in the last two years by the company and all companies in the consolidated statement to net income after tax, and an explanation of the policies, standards, combinations and formulation of remuneration. Remuneration procedures and correlation with operating performance.
  - A. Analysis of the total remuneration paid to the company's directors, general managers and deputy general managers in the last two years by the company and all companies in the consolidated statements as a proportion of the net income after tax:

Year	2	2022	20	23
m: . 1	Our company	Consolidated	Our company	Consolidated
Title		statements for all		statements for all
		companies		companies
director	2. 69%	2. 69%	3. 29%	3. 29%
General President and Deputy General Manager	0.75%	0.75%	1. 21%	1. 21%

The director's remuneration in 2023 and 2022 will be allocated in the same proportion of pre-tax net profit in both years. The business execution expenses of the remaining director's remuneration in 2023 will increase by 88,000 years compared with 2022.

The net profit after tax in 2023 is 1,585,694,777 yuan, the proportion of directors' remuneration to net profit after tax is 3.29%, and the proportion of remuneration of directors and part-time employees to net profit after tax is 5.61%;

The net profit after tax in 2022 is 2,434,237,925 yuan, the proportion of directors' remuneration to net profit after tax is 2.69%, and the proportion of remuneration of directors and part-time employees to net profit after tax is 4.12%.

- B. Policies, standards and combinations of remuneration payment, procedures for setting remuneration and correlation with operating performance:
  - (1) Policies, standards and combinations of remuneration payment: The payment policy for directors' remuneration is stipulated in the company's articles of association and is implemented with the approval of the shareholders' meeting.
    - 1. Directors' emoluments of the Company:
      If the company makes a profit that year, according to Article 33 of the company's articles of association, an amount of less than 3% should be allocated as directors' remuneration.

Independent directors do not participate in director remuneration distribution. Business execution fees for director remuneration are paid on a per-time basis based on the number of attendances, and carriage fees are paid monthly. The company is governed by the "Director Directors' remuneration is regularly evaluated in accordance with the "Board of Directors Performance Evaluation Method", and the relevant performance evaluation and remuneration rationality are reviewed by the Salary and Remuneration Committee and the Board of Directors.

- 2. The company's managers' remuneration:

  If the company makes a profit that year, according to Article 33 of the company's articles of association, more than 1% should be allocated as employee remuneration. Bonuses are based on the company's annual operating performance and financial status. status, operating status and individual work performance. according to 'Procedures for employee assessment" It is expressly scheduled that the assessment will be conducted in July and January every year, and the assessment will be based on the average of the two assessments. It is the basis for the payment of year-end bonuses. And review the remuneration system at any time based on actual operating conditions and relevant laws and regulations.
- 3. Manager performance evaluation items and proportions: organizational planning ability 15%, leadership 20%, execution 20%, innovation 10%, KPI 35%.

  The combination of remuneration paid by the company is stipulated in Article 6 of the Organizational Regulations of the Salary and Remuneration Committee, including cash remuneration, stock options, dividends, retirement benefits or severance benefits, Various allowances and other measures with substantial incentives; their scope is consistent with the standards for matters that should be recorded in the annual reports of publicly listed companies regarding the remuneration of directors and managers.

#### (2) Procedure for setting remuneration:

- 1. In order to regularly evaluate the remuneration of directors and managers, the company's "Board of Directors Performance Evaluation Methods" and the "Business Performance Bonus Operations" applicable to managers and employees are handled respectively. It is based on the evaluation results implemented by the "Act" and the company's operating performance.
- 2. Performance self-evaluation results of the board of directors, board members and functional committee members in 2023 All significantly exceeded the standards. The company's 2023 manager performance evaluation results, the performance of all managers has reached or exceeded the predetermined target requirements.
- 3. The performance appraisal and reasonableness of remuneration of the company's directors and managers are regularly evaluated and reviewed by the salary and remuneration committee and the board of directors every year. In addition to referring to individual performance achievements success rate and contribution to the company, and taking into account the company's overall operating performance, future industry risks and development trends, and timely. In addition, reasonable remuneration will be given after comprehensive consideration of current corporate governance trends. To seek a balance between the company's sustainable operations and risk control. review of the remuneration system at any time based on actual operating

conditions and relevant laws. The amount of remuneration for directors and managers in 2023 will be determined by the remuneration committee. After deliberation, it will be submitted to the board of directors for decision.

(3) Correlation with operating performance and future risks:

- 1. The review of the payment standards and systems related to the company's remuneration policy takes the company's overall operating conditions as the main consideration, and determines the payment standards based on the performance compliance rate and contribution. To enhance the overall organizational team effectiveness of the board of directors and management departments. We also refer to industry salary standards to ensure that the company's management remuneration is competitive in the industry so as to retain outstanding management talents.
- 2. The performance targets of the company's managers are combined with "risk control" to ensure that possible risks within the scope of responsibility can be managed and prevented, and the results of the ratings are based on actual performance and linked to relevant human resources and relevant salary and remuneration policies. Important decisions of the company's management are made after balancing various risk factors. The performance of relevant decisions is reflected in the company's profitability, and the remuneration of the management is related to the performance of risk control.

#### 3.4 Corporate governance operations

The amount of remuneration received from providing business, legal, financial, accounting and other services to the company or its affiliated companies in the past two years.

(2) Functions of Salary and Remuneration Committee

The function of the Company's Salary and Remuneration Committee is to evaluate the Company's salary and remuneration policies and systems for directors and managers in a professional and objective position. It should meet at least twice a year and make recommendations to the Board of Directors for decision-making. reference.

The Committee shall faithfully perform the following duties and powers with the care of a good steward, and submit its recommendations to the Board of Directors for discussion:

- 1. Formulate and regularly review the policies, systems, standards and structures for performance evaluation and salary remuneration of the company's directors and managers.
- 2. Regularly evaluate and determine the remuneration of directors and managers.

When performing the functions and powers mentioned in the preceding paragraph, the following principles shall be followed:

- 1. The performance evaluation and salary remuneration of directors and managers should refer to the normal payment situation of peers, and consider the reasonableness of the relationship between personal performance, company operating performance and future risks.
- 2. Directors and managers should not be guided to engage in behavior that exceeds the company's risk appetite in pursuit of salary remuneration.
- 3. The proportion of dividends and the payment timing of partial variable salary remuneration for directors and senior managers based on their short-term performance should be determined by taking into account the characteristics of the industry and the nature of the company's business.
- (3) Information on the operation of the Salary and Remuneration Committee
  - 1. The company's salary and remuneration committee consists of 3 members.

2. The term of office of the fifth member: May 24, 2023 to May 23, 2026. The Salary and Remuneration Committee met 4 times in the most recent year (A). Member qualifications and attendance are as follows:

Promote projects	Yes	No	Summary description	Best-Practice Principles for TWSE/TPEx Listed Companies" and Reasons
1. Has the company established a governance structure to promote sustainable development, and set up a full-time (part-time) unit to promote sustainable development, with the board of directors authorizing senior management to handle it, and what is the situation of board supervision?			The company has clearly formulated a code of practice for sustainable development. The principles and policies that regulate sustainable development in the code are to implement and promote corporate governance, develop a sustainable environment, participate in promoting social welfare, and strengthen the disclosure of sustainable development information. The company's sustainable development affairs are handled by the board of directors as the highest decision—making and supervision unit, and the promotion status is handled by the board of directors' authorized senior management, who regularly reports the situation to the board of directors. The preparation and filing status of the sustainability report for 2023 was reported to the board of directors on August 9. Through the contents of the report, the board of directors confirms the company's sustainable development and ESG management policies, supervises and reviews the management team's implementation of sustainable development and achievement of goals, so as to strengthen the company's constitution and implement the direction of sustainable management.	no significant difference
3. Does the company according to base on the principle of materiality, conduct risk assessments on environmental, social and corporate governance issues related to the company's operations, and formulate relevant risk management policies or strategies?			The company follows the AA1000 stakeholder negotiation standards and adopts five major evaluation methods to define the degree of stakeholder relationships by considering dependence, responsibility, attention, influence, and multiple perspectives.  The company follows the principle of materiality and focuses on the issues of concern collected through communication with various stakeholders. In addition to incorporating the level of concern of stakeholders into	no significant difference

#### 3.4.7 Responsibilities of corporate governance supervisor

The company has implemented corporate governance. The board of directors passed a resolution on February 14, 2020, and appointed Director Jing-Feng Lai as the director of corporate governance. Later, in order to comply with corporate governance requirements, the board of directors passed a resolution on March 8, 2023 and changed the role of director of corporate governance to a full-time position. to improve corporate governance reason related matters. Its responsibilities include "handling the information required by the board of directors to perform business in accordance with the law", "handling matters related to the board of directors' meetings and shareholders' meetings in accordance with the law", "providing the information necessary for directors to perform business", "assisting directors in their appointment and continuing education", "assisting Directors comply with laws, etc.

#### 3.4.8 How to inquire about corporate governance codes and related regulations

The "Investor Area" of the company's website has a "Corporate Governance" area for investors to inquire and download corporate governance-related regulations, important matters resolved by the board of directors, major information, etc. The website is <a href="http://www.chem.com.tw">http://www.chem.com.tw</a>

3.4.9 Other important information that is sufficient to enhance the understanding of corporate governance operations. There is a special area on the company website to explain the company's governance situation and attach relevant corporate governance rules for reference by internal and external parties. In addition, the company will disclose important information to the public in a timely manner.

## 3.4.10 Disclosure of the implementation status of the internal control system 1. Internal Control Statement:

# Chung Hsin Electric & Machinery MFG. Corp. Internal Control System Statement

Date: March 11, 2024

- 1. Our company in the Republic of China Based on the results of the self-assessment of the internal control system in 2023, we hereby declare as follows:
- 2. The Company is fully aware that establishing, implementing and maintaining an internal control system is the responsibility of the Company's Board of Directors and managers, and the Company has established such a system. Its purpose is to provide reasonable services to achieve the goals of operational effectiveness and efficiency (including profitability, performance and asset security, etc.), reporting reliability, timeliness, transparency and compliance with relevant norms and relevant laws and regulations. of assurance.
- 3. The internal control system has its inherent limitations. No matter how perfect the design is, an effective internal control system can only provide reasonable assurance for the achievement of the above three goals. Moreover, due to changes in the environment and circumstances, the effectiveness of the internal control system may change. change. However, the company's internal control system has a self-supervision mechanism. Once deficiencies are identified, the company will take corrective actions.
- 4. The Company determines whether the design and execution of the internal control system are effective based on the items for judging the effectiveness of the internal control system stipulated in the "Principles for Establishing Internal Control Systems for Publicly Issuing Companies" (hereinafter referred to as the "Principles"). The internal control system judgment items used in this "processing standard" are based on the management control process, and the internal control system is divided into five components: 1. Control environment, 2. Risk assessment and response, 3. Control operations, 4. Information and communication, and 5. Supervision of operations. Each component includes several items. Please refer to the provisions of the "Processing Guidelines" for the aforementioned items.
- 5. The Company has adopted the above-mentioned internal control system judgment items to evaluate the effectiveness of the design and implementation of the internal control system.
- 6. Based on the results of the preceding assessment, the Company believes that the Company's internal control system (including the supervision and management of subsidiaries) as of December 31, 2020, including understanding the effectiveness of operations and the extent to which efficiency goals are achieved, and reporting are reliable. The design and implementation of

Corporate Governance Report

relevant internal control systems that are timely, transparent, and in compliance with relevant norms and laws and regulations are effective and can reasonably ensure the achievement of the above goals.

- 7. This statement will become the main content of the company's annual report and prospectus and will be made public. If the above-mentioned disclosed content is found to be false, concealed or otherwise illegal, it will involve legal liability under Articles 20, 32, 171 and 174 of the Securities and Exchange Act.
- 8. This statement was approved by the Board of Directors of the Company on March 11, 2024. The directors present Out of 9 people, there are 0 people had objections, and all of them agreed with the contents of this statement and hereby declare it.

Chung Hsin Electric & Machinery MFG. Co	orp.
Chairman:	

General manager:
